On 29 January 2010, one Bell Turkish military aircraft violated international air traffic regulations and the national airspace of the Republic of Cyprus.

On behalf of my Government, I strongly protest the aforementioned continued violations by Turkey and call for their immediate cessation.

Turkey's policy of non-observance of rules and regulations governing international aviation continues to gravely jeopardize flight safety and perpetuate insecurity and apprehension on the island. Furthermore, Turkey's systematic attempts to undermine the sovereignty and unity of the Republic of Cyprus by promoting an illegal secessionist entity, arrogating to itself, inter alia, the right to control part of the airspace of the Republic of Cyprus, further complicate the efforts to build trust and confidence between the two communities. Such policies and actions provide ample demonstration of the irresponsible behaviour of a country that now serves as a non-permanent member of the Security Council.

As stated in previous such letters, the continued violations of the international air traffic regulations and the national airspace of the Republic of Cyprus by Turkey should be included in the report of the Secretary-General on the United Nations operation in Cyprus.

The Government of Turkey should heed the call of the international community, abide by the Charter of the United Nations and respect the sovereignty, independence and territorial integrity of the Republic of Cyprus, thus contributing to the creation of the required conditions for the achievement of a viable solution to the Cyprus problem, according to the agreed basis endorsed by numerous Security Council resolutions.

I should be grateful if you would have the present letter circulated as a document of the General Assembly, under agenda item 21, and of the Security Council.
